

Sam Vipond is first and foremost a music lover. These days he likes to play what he calls “Fancy Bass” which is really any sort of bass music that is awesome, bouncy and gets bums wiggling. One of his favourite things to do is to share some of the really great tunes he's been collecting since he started DJing in 2006. He has shared stages with the likes of The Gaslamp Killer, Eskmo, Bassnectar and Appleblim, and played festivals such as Igloofest, Evolve, Future Forest and Piknic Electronik.
